PROJECTS

Graph-Based Detection:  | **FAST API, NEO4J,NODE.JS**

2026

- PhishGuard – Developed a phishing detection system using graph-based URL analysis to examine domain relationships, redirects, SSL certificates, DNS records, and hosting infrastructure for accurate malicious website detection with reduced false positives.
- Built a secure browser sandboxing module using Playwright to safely inspect suspicious links, automate webpage analysis, and capture screenshots in an isolated environment for phishing investigation.

Petcare-Website  | **MERN STACK**

2024

- PetCare Website service-based platform designed to make pet parenting easier and more convenient. It allows users to book track vaccination of pets,appointments with nearby veterinary hospitals, hire trusted pet care sitters, and schedule grooming sessions.
- In addition, PetCare provides training tips, nutrition guides, and raises awareness about common pet diseases.

Expense Tracker  | **JAVA, OOP, JDBC, MYSQL**

2025

- It is a desktop application built using Java and managed with Maven. It helps users track their expenses by recording each transaction along with its category like Food, Travel.
- Designed a category-based expense tracking system with secure database operations using PreparedStatement, CRUD functionalities, exception handling, and structured model classes, enabling users to efficiently organize expenses and analyze spending patterns.

[Cloud computing](#)  75%(Silver)

[Programming in C](#)  40%

INFOSYS SPRINGBOARD - Java Foundation,Data Structure,Introduction to Python

COURSERA- [Algorithms for Searching, Sorting, and Indexing](#)

INTERNSHIP

[LearnLogicfy Technologies LLP, Coimbatore](#)

Developed responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap, improving UI consistency and mobile Performance.

COMPETITIVE PROGRAMMING & DSA

Technical Strengths : Strong foundation in Data Structures & Algorithms including linear and non-linear data structures, problem-solving, and algorithmic optimization.

LeetCode: Max Rating **1839** | **Top 6.36%** Globally | **370+** Problems Solved | **4 Badges**

CodeChef: Max Rating **1666** (3★) | **736 +** Problems Solved | Current Rating : **1636** | Global Rank: **13013**

Geeksforgeeks : **119+** problems solved

ACHIEVEMENTS

- Solved **1360+** coding problems across multiple competitive platforms and participated in 119+ CodeChef contests, strengthening problem-solving and competitive programming skills.Won **1st Prize** in a coding competition at an inter-college technical fest held at Dr. NGP College of Engineering.
- Secured a **Top 15 position** in a 24-hour coding hackathon and also participated in a 36-hour hackathon, gaining hands-on experience in team-based problem solving
- Actively participated as a **Master of Ceremony** in various college events, enhancing communication and leadership skills.
